

WE REINFORCE VOCATIONAL EDUCATION IN THE WATER SECTOR. DO YOU SUPPORT OUR AMBITION? JOIN OUR PROJECT REFERENCE GROUP.

The European partnership **Platform of Vocational Excellence Water** is looking for Water Industry representatives, Vocational Education experts and government/regional entities that are willing to act up as 'critical friend' and evaluate the results our project develops. By joining our Project Reference Group you become part of our network and support us in our ambition to educate vocational students to be the future professionals our rapidly changing Water sector needs.

Contact your [regional partner](#) to join the Project Reference Group.

Pilot PoVE water is a transnational project that draws on existing and emerging vocational competences and skills needs in the water sector. The project translates these needs into an approach of vocational excellence, ensuring upward convergence of vocational education with the regional and transnational knowledge triangles and a strong engagement with the regional/national economic and social ecosystems. PoVE Water will develop:

VOCATIONAL EXCELLENCE SCANNING TOOLS

to identify the existing systems of Vocational Excellence of the participating organisations and prepare the knowledge sharing process

5 CENTRES OF VOCATIONAL EXCELLENCE WATER

acting up as regional 'Skills ecosystems'

PLATFORM OF VOCATIONAL EXCELLENCE WATER

bringing an EU dimension to Vocational Excellence in the water sector

UPSCALING STRATEGY

for the PoVE Water to grow and create a critical mass and sustainable ground for further development
