Vocational Excellence Scanning tool – Triple helix position

Co-funded by the
Erasmus+ Programme
of the European Union

This programme has been funded with support from the European Commission. The author is solely responsible for the content and accepts no responsibility for any use that may be made of the information contained therein.

Project number: n° 612632-EPP-1-NL-EPPKA2-SSA-P

The triple helix or knowledge sharing triangle:

To build upon the detail established about each region using tool 1, tool 2 will clearly show the areas where the links can be made or how strong they are where they do exist between Business, Education, Research & Technology.

By executing scan at tool 1 on all different aspects of Vocational Excellence, regions can now, using tool 2 determine their status quo. The transitional partnership will share the outcomes of the vocational excellence scan at the knowledge sharing workshop at the second project meeting and determine areas to share best practice and where to learn from other consortium partners.

The triple helix or knowledge sharing triangle:

Use the model below to determine the position of your organisation in the triple helix or knowledge sharing triangle.
